

B.S. and Other Advice about Money

We are all full of our own B.S. (our own Belief Systems). Your Belief System will have the greatest impact on your life; it will have a greater effect on you than your family, your friends, or your profession. It is absolutely molded, twisted, stretched, and influenced by your family, friends, profession, and other external forces. The reality is that you and I are full of B.S. However, what you consciously choose to do with your B.S. makes all the difference.

This book is crafted to challenge your Belief System and to get you to think about what is possible for your life and for your business. Through more than 25 years of being an entrepreneur, business consultant, and researcher of human behavior, I often get the question, How can I make more money? The following anecdotes in this book are designed to answer that question for you.
