

Displaced: Book One of the Achlivan Cycle (Volume 1)

Chevelle Donahue thought going into work would be just like any other boring day at the mall. Sure, there was her annoying co-worker Wicken Sanders, and a promotional visit from teen heartthrob Timber Hudson, to watch and keep her entertained. But who was she kidding? Working retail was lame no matter what happened. A terrorist attack changes everything - an attack from aliens of all things. The patrons are given two options: comply or else. Complying means giving in to a new set of rules and changing her entire life. Or else means she has no chance of going home again. She must figure out the truth behind why the aliens are holding everyone hostage. In doing so, she risks her chance at freedom - but by the time she learns what's really happening, she might not want it.
