

Smoking Cessation by Self-Hypnosis

If you are a smoker looking to quit, you've probably tried many times unsuccessfully. In *Smoking Cessation by Self-Hypnosis*, author Dr. Steve Grattan provides not only a resource for anyone interested in understanding the reasons for smoking, but also practical, proven techniques on how to use self-hypnosis to quit smoking effectively. More than a simple how-to-stop-smoking guide, *Smoking Cessation by Self-Hypnosis* helps you gain a deeper understanding of yourself in order to achieve a broader grasp of both the internal and external causes of smoking. This broader understanding creates a foundation for smoking cessation that is more promising than a simplistic approach. In addition to providing an overview on hypnosis and how the mind works, Grattan discusses his personal experience with the method and also shares case studies. Informative and challenging, *Smoking Cessation by Self-Hypnosis* offers real hope to smokers seriously committed to doing what it takes to quit successfully and become nonsmokers.
