

Oil, Economic Development and Diversification in Brunei Darussalam (Studies in the Economies of East and South-East Asia)

The book examines the nature of development and diversification in the oil and gas exports, development planners have sought to implement a range of strategies for diversifying the economy in order to secure sustainable levels of growth and development. As well as providing with an informed, up-to-date account of Bruneian economy and society, the book evaluates these strategies and assesses their impact on Brunei and on its place in Southeast Asia.
