

Pregnancy week by week: Pregnancy Journal : Voices from the womb (My Pregnancy Toolkit)

You are probably curious to know what goes on inside your womb: How your baby is developing. What can be a better way than hearing about it from your baby himself? Being pregnant is both an incredible privilege and significant event in the lives of women that are fortunate enough to carry a child. While it's a time filled with wonder and hope, it's also marked by dramatic physical and emotional changes and major decisions. At no other time in your life will you be filled with as many swirling thoughts or distinct experiences. Every woman's pregnancy is unique, and you deserve the opportunity to document this special journey as your baby develops. I've created this pregnancy journal to give women like you a guide to what new sensations both you and your baby will be experiencing, as well as a place to record how you're feeling and changing from week-to-week. For each of those 42 weeks, you'll get an insider's perspective - that is, your baby's view - on how he or she is developing inside the womb and what changes you might be seeing or feeling. Along with learning about what's happening with your pregnancy, you'll also have space to write down your thoughts and the steps you've been taking to prepare for your little one's arrival, as well as space for photos and other memories. With plenty of space to keep track of your progress and capture special memories, this pregnancy diary not only provides a place to explore your emotions and major decisions, but serves as a keepsake memento and virtual scrapbook of this magical time in your life. You can even pass your completed pregnancy book onto future generations as a one-of-a-kind pregnancy gift. While you're at it, consider buying some extra copies to pass onto your future daughter or daughter-in-law, so they can share their pregnancy experiences in the same special way you are.
