

A Basic Guide to Technopathic Stress

Is your technology making you ill? In our gadget-hungry modern world we are exposed to unprecedented levels of electromagnetic radiation arising from our increased use of electricity and wireless devices. Growing numbers of people are suffering from electro hyper-sensitivity. This book is an essential risk assessment for the home and office environment. Written in an easy to understand style, Grahame demystifies the subject and outlines some simple precautions that will allow you to maintain a technological lifestyle without getting sick.
