

Inaugural Pan-European Conference: International Relations and Pan-Europe 2. Aufl. 1994 (Schriftenreihe des European Centre European/Europai der Association Internationa)

This book originated from the Inaugural Pan-European Conference in International Relations held in Heidelberg, September 1992. More than four hundred scholars from about thirty countries convened in workshops covering topics ranging from theoretical and disciplinary considerations to applied security concepts. The selection from this broad range of topics was provided by an editorial committee from the Standing Group on International Relations in the European Consortium for Political Research. The articles in this book are grouped into six main fields of research, i.e. International Relations and Its Theoretical Orientations, Foreign Policy Studies, Europe, The Study of Conflicts, Security Studies and United Nations. The reader has the option to overview the present state of scholarly activity in International Relations or get an insight into specific study-areas. It reflects the state of the art in the study of international relations particularly in Europe where most of the authors come from.
