

Sparks and Taylors Nursing Diagnosis Reference Manual

Sparks and Taylors Nursing Diagnosis Reference Manual, Eighth Edition provides clearly written, authoritative care plan guidelines for all 2009-2011 NANDA International (NANDA-I) approved nursing diagnoses. The book is newly designed with bright colors, and organized by life-stages and type of care. Each Part opens with a new feature, Applying Evidence-Based Practice, which responds directly to the content. Each NANDA diagnosis includes associated Nursing Interventions Classifications (NIC) and Nursing Outcomes Classifications (NOC), and the nursing process is integrated throughout. This book is the ideal resource for any clinical setting.
