

The Creation and Evolution of Spiritually Conscious Human Beings: Preparing for the Next Phase of your Journey

Bobby Wallis prequel to *The Transformation of a Planet* explains the spiritual origin of Earth and its citizens and hints at what the future holds for both. Historical facts have been hidden for millennia in order for certain groups to maintain their control over most of the world's population. But the time has come for secrets to be revealed. This is the real definition of the word apocalypse and the true purpose of the years surrounding 2012. While not a religious book, ...*Spiritually Conscious Human Beings* describes the role of Lucifer in Earth's evolution and his impending eviction from the planet. The part played by races from other worlds is also recounted. You may not be completely responsible for things as they are, but you are definitely accountable for your own destiny. This book will tell you why and how to best prepare for the days ahead. Bobby Wallis has been receiving messages from the higher dimensions for more than twenty years. He was urged by his guides to make much of the information public in order to help generate awareness. People have become wary of authority on all levels and in all aspects of daily life. Rightly so. Power does not belong to the few. It belongs to each and every individual, and now is the time to reclaim it. The battle between good and evil is upon us. The days of chaos are here. This book is just one of the tools to help you get through them. And as you will read, the future is bright indeed!
