

## Life Organizer: Personal Magick

We all suspect there is a meaningful thread of truth reaching through all religions and philosophies. This book gives the reader one reasonable explanation of Genesis, Cosmos and God, using the Tree of Life metaphor to explain how Life Organizer Personal Magick works. It presents a compelling incentive to improve - to provide a better example to others and make a difference in society - by participating in an ongoing conversation with Universe. This gives the reader a sense of confidence to understand that improvements can be made in their mundane lives and relationships, and meaning can be added to their spirit and soul.
