Theories of Counseling and Psychotherapy: Systems, Strategies, and Skills offers an innovative look at emerging and well-established counseling theories. Organizing theories into four broad themes (Background, Emotions, Thoughts, and Actions), authors underscore key similarities and differences in each approach. Moving beyond a traditional theories book, chapters include skill development sections that connect counseling theories with clinical practice. Fully revised, this edition brings a stronger multicultural focus, includes over 400 new research references, and offers new activities to sharpen clinical understanding. The Enhanced Pearson eText features embedded video.
