

Trading Places: The Airport Economists Guide to International Business

Is Japan running out of husbands? Is China running out of wives? Did Genghis Khan really invent free trade? And why can't you see the price of a Big Mac at McDonald's in Argentina? In *Trading Places*, Tim Harcourt also known as the Airport Economist takes you around the globe, talking to businesses, governments, union officials, NGOs, and others in the community to understand what makes each economy tick. He reveals where the opportunities are, identifies the risks, and provides insider tips on doing business in each destination. Like *The Airport Economist*, a bestseller in several languages, *Trading Places* is essential reading for business travelers, students of economics or business, and anyone who wants to understand the complexities of our modern globalized world.
