

Transnational Leadership Development: Preparing the Next Generation for the Borderless Business World (AMA Innovations in Adult Learning)

As the business world becomes increasingly borderless, leaders and managers of all cultures are being called on with greater frequency to assume leadership roles in other countries or to lead diverse multicultural teams in their own countries. Transnational Leadership Development acquaints readers with the paradoxes and mental processes leaders need to relate successfully to people with different backgrounds, cultures, and societal identities. The book advises readers on how leaders may learn to see, feel, and experience the world with different lenses; take the necessary amount of time to reflect on what they know and what they need to know; find new ways to communicate; and be resilient in the face of this unique challenge. This powerful guide lights the way for those seeking to develop their peoples proficiency in leading globally.
