

## Final Straw (An action, adventure, survival series for children, middle grade, teen and young adult) (Urban Hunters Book 8)

Did you know New York Book Reviews, WD La Rue, recommends the Urban Hunters series, The #2 Kindle Bestseller in Teen and Young Adult Action Adventure Series?\*\*\*Warning\*\*\* Before you purchase this book please be aware that Final Straw will not make your head fall off with laughter, as has been happening during the reading of books 1 to 7. Ambers story is no laughing matter. It drove her to run away from home, to live on the mean streets Sydney.??? Praise for Final StrawWow.... Urban Hunters just gets better and better.... This is Ambers story and it is not all sunshine and light. There is a good deal of darkness and sadness. A good deal of loss. Yet, Amber is surviving. She refuses to be a victim. She has fortitude, she has pluck, and she seems to intuit that there will be better days.This is a deeply felt, even loving story. Even as Mr Taaffe is telling it in much of its grim detail, you feel he has his arms around Amber and is trying to help her through, as are we. Bravo, Sir! A splendid addition to your tale. New York Book Review- WD La Rue ??? Other 5 out of 5 star reviews for the Urban Hunters series ...Its exciting how Gary highlighted Amber in this instalment. Its extremely awesome! One of the best, young adult books in our generation. JB Cacadac, Singapore Review of Books??? Overview of Final Straw ...Ambers idyllic life is turned on its head in a horrible twist of fate. She must now decide, fight for a life of her own or remain a victim at the hands of her mother.??? More praise ...So well told. Truly emotional. Great ending! Anne, Editor Australia Masterpiece Gaz. A must read. Ann, UK Book ReviewsTaaffes series is a wonderful action series for boys and girls who dont mind a little grit in their stories. Tammy and Alex Dewhurst, CanadaThese characters are so likeable and the message is so humane and positive. I am so tired of literature full of anger, angst and cruelty. I find this entire series

uplifting. You wont find vampires, werewolves, magic etc. Just plain old folk relating to each other and their environment and doing the best they can with what they have. What can I say? I love this series and look forward to its continuation. Read these books. Enjoy!!  
New York Book Review- WD La Rue  
URBAN HUNTERS is laugh-out-loud, gut-churning, heart-wrenching storytelling at its best. Unlike anything youve ever read, in typical Taaffe fashion. Hilarious as usual. Always surprising. Wonderful!#2
